

# HOW TO DETERMINE WHICH EXECUTIVE YOU NEED

## 1. Confirm your trailers frame model

- a. Our standard options are 1621, 1621HD, 1116, 1716, and the Rhino box. We also offer the Turning Point model in the gooseneck form. Check the chart on the next page for a part number. All of our standard models are for Lippert frames
- b. Sometimes your frame model can be found on the trailers pin box
- c. If you are unable to locate this model number you can get the measurement described below. If you get one of the following measurements our standard models will fit your bolt pattern

If you measured **7  $\frac{7}{8}$ "** your frame model is **1621 or 1621HD**

If you measured **8  $\frac{3}{4}$ "** your frame model is **1116 or 1716**

If you measured **7  $\frac{1}{2}$ "** your frame model is **Rhino Box**

***The 1116 and 1716 will need our Filler Shims***

## 2. Confirm your TRAILER'S gross vehicle weight rating (GVWR)

If your GVWR is **7,275 - 16,360 LBS** , go with the **4.5K** model

If your GVWR is **16,365 - 25,450 LBS** , go with the **6.5K** model

If your GVWR is **25,455 - 30,000 LBS** , go with the **8.5K** model

***If you have any questions call GEN-Y Hitch at (574) 218-6363***

Use this chart to find the part number for  
the pin box that will fit your trailer

### Fifth to Goose

	<u>4.5K</u>	<u>6.5K</u>
<u>1621,1621HD,</u> <u>1116, 1716</u>	GH-8055AL	GH-8075AL
<u>Rhino Box</u>	GH-8056AL	GH-8076AL
<u>Turning Point</u>	GH-8047AL	

### King Pin

	<u>4.5K</u>	<u>6.5K</u>
<u>1621,1621HD,</u> <u>1116, 1716</u>	GH-8050	GH-8070
<u>Rhino Box</u>	GH-8051	GH-8071
